

Dr. Pinatello has made a commitment to
"Making Health a Reality"

Chiropractic Orientation

A more effective approach to health explained

FREE HEALTH SEMINAR

LOCAL BUSINESS
Appreciation Month

Chiropractic care focuses on keeping the body functioning properly in a stressful world. During this orientation we will discuss the benefits of Chiropractic and the importance of wellness living. It is recommended for the whole family to attend this orientation to learn more about living healthy!

Every Wednesday!

Registration: 6:00pm Start: 6:05pm End: 6:35pm
Location: Live Proper Chiropractic - Westerly, RI

All Health Orientations are open to the public and we encourage you to spread the word and bring your family and friends.

Chiropractic care is used to remove interference caused by misalignments of spinal bones. Removing nerve interference through specific Chiropractic Adjustments is the main goal in our office. Once the nerve system is functioning without interference you get relief of your symptoms. This is due to the ability of the body to heal when functioning properly. Don't let everyday emotional, chemical, or physical stresses act negatively against your health. Learn to stay healthy!

Chiropractic is a lifestyle just like exercise and good diet.

Live Proper Chiropractic is investing in our community by donating \$10 to

Local Youth Sports Programs

for every additional membership this month!

Together we can make a difference and can
"Make Health a Reality"

Call to reserve a seat for you and your whole family today!

5 reasons to join LPC!

- 1. Convenience** – Our *Membership Practice* operates on a “walk-in” basis. Because you don’t need an appointment, you work your visits to the chiropractor into YOUR schedule instead of working your schedule around your appointment. Our job is to simplify your life and help you *de-stress* NOT to further complicate it.
- 2. Simple Fees** – One of the key features of a *Membership Practice* is predictable fees. Our *Membership Practice* offers all of your visits at a fixed fee, making the cost of regular chiropractic care predictable and affordable. Simpler fees make third party reimbursement unnecessary, even obsolete.
- 3. Privacy Rights** -Because insurance is not involved in a *Membership Practice*, you never need to worry about your information being reported to an insurance clearing house. Many people have experienced problems with information reported to agencies like the credit bureau or Medical Information Bureau.
- 4. More and Better Service** – Because the focus is on YOU and not your insurance company, you get exactly what you need and exactly what a chiropractor is REALLY trained to offer, the chiropractic adjustment. Your time is not wasted on treatments or therapies that may not be needed but MAY BE covered by insurance. Because the membership chiropractor’s focus IS the adjustment, you tend to get better adjustments AND you get in and out quicker, saving you time and money.
- 5. No Conflicts of Interest** – Because your relationship is with the chiropractor and the chiropractor’s relationship is SOLELY with you AND because what you pay your chiropractor is FIXED, you never have to wonder if his/her recommendations are for YOUR benefit. You KNOW that their recommendation is based on YOUR need and NOT a third party.

A Chiropractor that has chosen to offer a Membership Practice, has done so in order to help more people by providing Chiropractic care at an affordable price and in a manner that makes your life simpler and more powerful.
